Alan Wittenberg M.A., CMT

Certified Music Therapist / American Music Therapy Association (AMTA)

**Surry Music Therapy Center (SMTC)
Early Spring 2010 Seminars**

**Treating Autism Spectrum Disorders:
Music Therapy and Sensory Integration**

NO PRIOR MUSICAL TRAINING IS NECESSARY

Saturday March 27, (PART I)

Saturday April 3, (PART II)

Target Audience and Seminar Format

These carefully structured seminars will be of value to therapists, educators, ed. techs, administrators, university students, direct-care staff members, and family members. Seminars include video illustrations, workshop activities and activity ideas, question and answer periods, as well as in-depth resource handouts.

Learning outcomes include:

- o •Gain an overview of the field of music therapy in the treatment of autism spectrum disorders (ASD) and illustrate sensory experience and processing via musical activity.
- o •Experience music therapy by participating in vocal, instrumental and movement workshop activities
- o •Discuss different music therapy approaches and see how these integrate with allied health and educator goals that can be creatively adapted and employed in treatment and in the classroom.
- o •Compile a list of music therapy activities and resources to integrate within clinical, educational, pre-school and residential settings

Seminars are 10:00am to 3:00pm, with an hour for lunch / discussion. Please bring a bag lunch. Coffee and tea will be available at the seminar. The **Fee is \$60.00 per seminar or \$100.00 for two seminars.** **CEUs (.5)** from the University of Maine will be given to seminar participants. All seminars will be held at the Surry Music Therapy Center, located on route 176, 2.6 miles from the town of Surry.

Space is limited. Register **by** phone 207-667-1308 or email alan@surrymusictherapy.com to reserve a place. Further information on music therapy and the Surry Music Therapy Center can be found on its website: www.surrymusictherapy.com
