Music as Therapy courses offered this Summer!

Looking for a fun and novel college course to take this summer?

The University of Maine Hutchinson Center in Belfast has many new and unique courses being offered. This summer there are three "music as therapy" courses that might be just what you are looking for in either your personal or professional life. No music background or experience is required.

MUY 298 (cross listed as MUS 510) **Music as Therapy – Geriatric Populations** will be offered on 5 Fridays from 9:30 to 4:00 pm (June 5, 12, 19, 26 and July 3). Those in the social service, health care and nursing fields may find this unique training just what they need to rejuvenate their spirits and their work.

MUY 298 (cross listed as MUS 510) **Music as Therapy – Special Needs Children & Youth** will be taught in a one week intensive format, June 29 through July 2 from 8:30 to 4:00 pm. Anyone working with children with special needs can benefit from this week of learning and developing the tools and strategies to use music as therapy in their work and personal lives.

PAX 495 Music as Healing: Self-Knowledge, Inner Peace and Reconciliation will be offered as a one week intensive course starting July 13 and ending July 17, from 9:30 am to 4:00 pm each day. Students will explore and experience the power of music as therapy on emotional, reflective and interpersonal levels via listening, imagery, workshop activities, readings, lecture, and web-based research. This course will not only introduce students to the clinical, developmental and rehabilitative field of music therapy but it will bring the experience of music as a transformative force in our lives into the classroom.

These three music therapy courses are being taught by Alan Wittenberg.

If you have questions about these courses, please contact the instructor, Alan Wittenberg, M.A., CMT and member of the American Music Therapy Association.
